

# PRIMARY SCHOOL SUNBEAM

December 2024

## HAPPENINGS

It's December already, and Preschool is very excited to jump into the festivities! We are busy little elves learning our Carden lessons, and building up our stamina and creativity during art. We are also bonding everyday as a class, and forming great friendships. We look forward to seeing all of our families for the Holiday Assembly!

Pre-K has been busy getting prepared for the holiday season. With art projects and preparing with poems and songs for the upcoming assembly. Also, they are keeping up with their lessons which consist of writing their letters(pairs), literature book called, "Keep Running, Allen," math book and letter books too. The children have been enjoying their French and music lessons too.

in Jr. K, the children have been busy with their hands writing their letters and numbers while reviewing their sounds and letters daily. We are on our 2nd literature book about Angus and his adventures in, "Angus and the Cat." Also, they've been learning about patterns, counting, blocks in math and a variety of hands on activities in science too. We are now getting into the holiday season and have started practicing their poems and songs for the upcoming assembly this month. They are all so very excited to perform in front of you again soon.
