

PRIMARY SCHOOL SUNBEAM

March 2025

PRIMARY ENRICHMENT

We hope that you all have enjoyed the afterschool enrichment that we had this school year. We have had so much fun with your children doing the various fun activities with them while learning. The last sessions are coming quick and this is your chance to join in.

Spanish class with Miss Garcia has started in February and it's last session will start in April. As for Karate, Science, and Art classes, they will start up again with their last session in the beginning of this month. This is a great opportunity for you to have your children join in the fun with their teachers and friends. If you would like more information, flyers are now available at the front office.
